SORTENREGISTER

Stand 1. April 2022

Die eingeklammerten Zahlen hinter den Sortenbezeichnungen verweisen auf die lfd. Nummer des Anschriftenverzeichnisses. Sie bedeuten:

| | |
|-----------------|---|
| Ohne Buchstabe: | Sortenschutzinhaber/Züchter/weiterer Züchter |
| V: | Verfahrensvertreter nach § 15 Abs. 2 SortG/§ 42 Abs. 6 Saat |
| B: | Bevollmächtigter |
| N: | Nutzungsberechtigter nach § 11 Abs. 2 SortG |

C vor der Kennnummer bedeutet: Codebezeichnung

Hinter jeder Sorte ist die Kennnummer angegeben, unter der die Sorte beim Bundessortenamt geführt wird.

Bei Rebsorten werden außerdem nach der Sortenbezeichnung und der Nummer im Anschriftenverzeichnis, die zugehörigen Klone angegeben.

A Nach dem SaatG zugelassene Sorten, Sorten mit Auslaufristen und Hinweise nach § 33 Abs. 8 SaatgutV

Sorten, die erstmals bzw. erstmals wieder aufgeführt werden, sind durch ein + vor der Sortenbezeichnung kenntlich gemacht.

Hinter den Kennnummern sind in Klammern für die Anerkennung von Saatgut relevante Hinweise aufgeführt.

Die Sorten sind gleichzeitig nach dem Sortenschutzgesetz (SortG) geschützt, soweit sie nicht durch einen *) gekennzeichnet sind.

Bei Sorten, die als Erhaltungssorten zugelassen sind, ist die Ursprungsregion mit aufgeführt.

Das Endigungsdatum der Auslaufrist ist jeweils unter 2. aufgeführt.

Eine im Einzelfall etwa über diese Daten hinausgehende Anerkennungs- und Vertriebsfähigkeit aufgrund der Bestimmungen des § 55 SaatG über Sorten aus dem übrigen EWR-Bereich (Bereich der Vertragsstaaten (Mitgliedsstaaten der Europäischen Union, Island, Liechtenstein und Norwegen)) bleibt durch diese Endigungsdaten unberührt.

Sorten nach § 55 Abs. 2 SaatG werden nicht mehr im Sonderheft aufgeführt. Der aktuelle Stand der in anderen Vertragsstaaten eingetragenen und in Deutschland anererkennungsfähigen Sorten ist der Internetseite des Bundessortenamtes zu entnehmen.

Der Hinweis "Auflage Nr." bezeichnet eine der unter 3. aufgeführten Auflagen.
